Seletores

```
p {...}
```

```
#id {...}
```

```
.class {...}
```

Selector

p

{

color: orange;

font-size: 16px;

}

Value

Property

Display

display: none

display: block

display: inline

display: inline-block

Espaçamentos / Unid. de Valores

margin: 20px

padding: 5%

em / rem / vw / vh / ch / ...

Definindo um quadrado!

width

top

left

right

height

bottom

border

margin

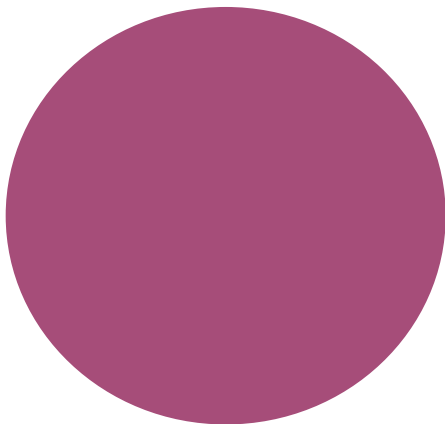

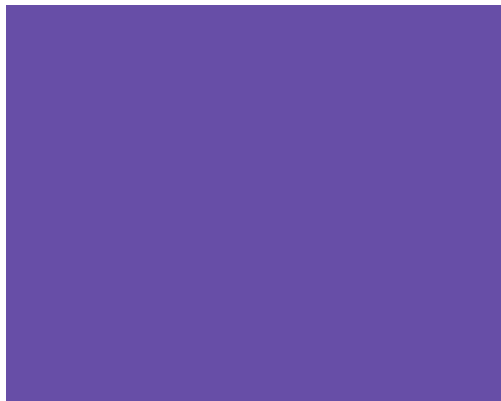

border-radius

padding

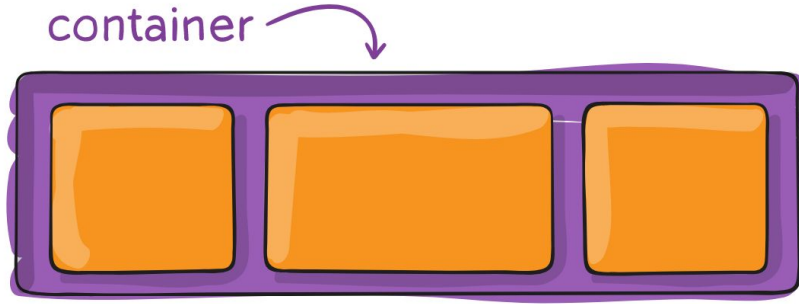

Agora é sua vez <3

Tente criar os elementos abaixo no [codepen](#) ou no [glitch](#).

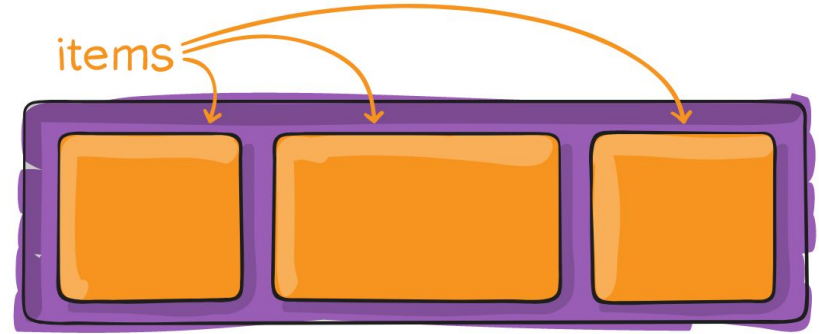

[Basic example](#)

Posicionamento com FlexBox

**Properties for the Parent
(flex container)**

**Properties for the Children
(flex items)**

display: flex

Posicionamento com FlexBox

flex-direction

flex-direction: row

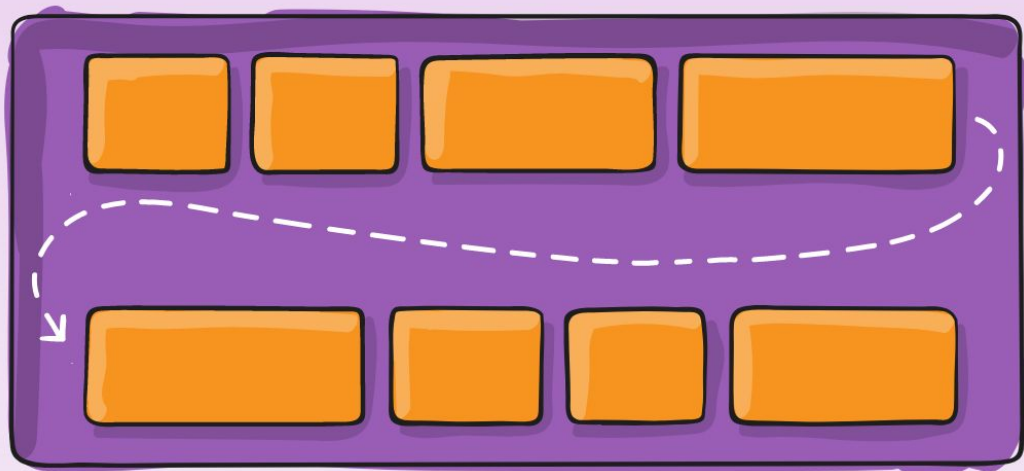

reverse

flex-direction: column

Posicionamento com FlexBox

flex-wrap

flex-wrap: wrap

flex-wrap: no-wrap

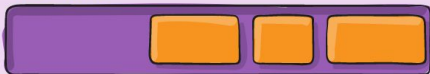

Posicionamento com FlexBox

justify-content

flex-start

flex-end

center

space-between

space-around

space-evenly

`justify-content: flex-start`

`justify-content: flex-end`

`justify-content: center`

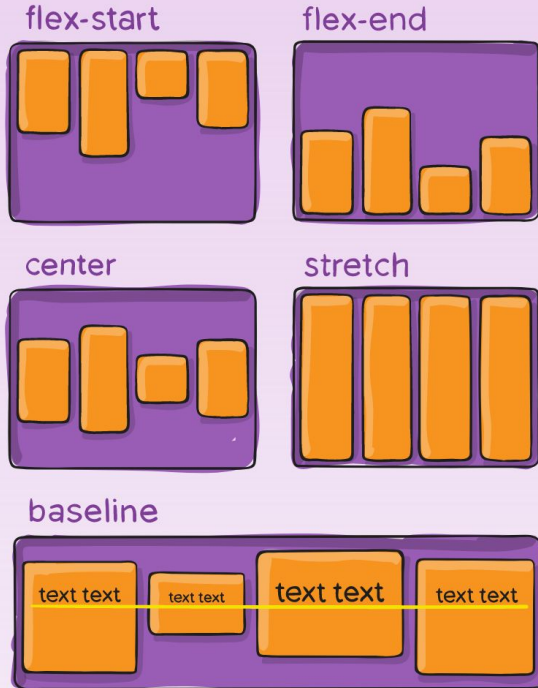

`justify-content: space-between`

`justify-content: space-around`

`justify-content: space-evenly`

Posicionamento com FlexBox

align-items

`align-items: flex-start`

`align-items: flex-end`

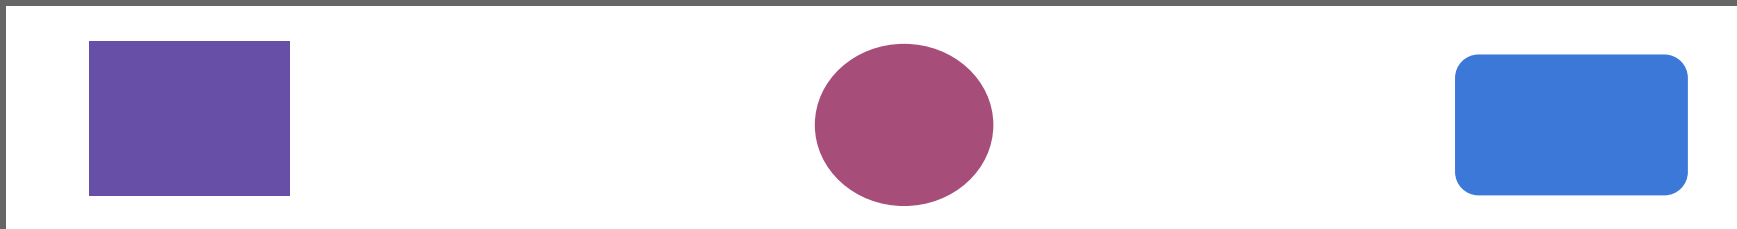

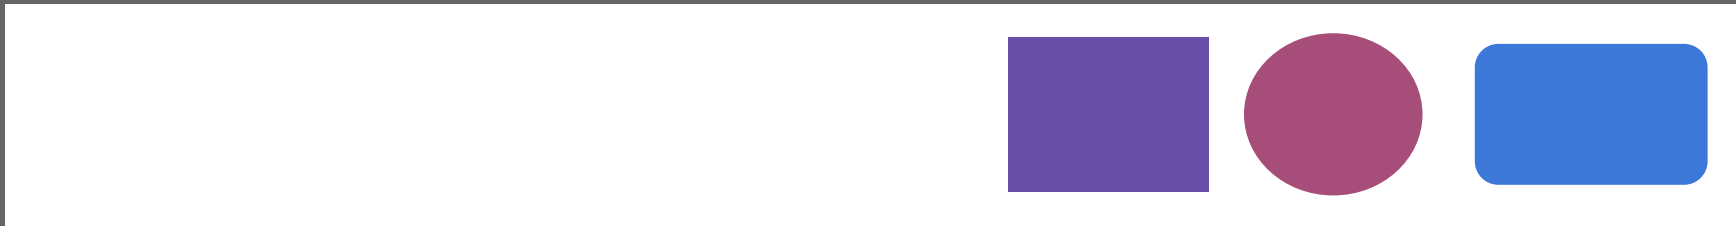

`align-items: center`

`align-items: stretch`

`align-items: baseline`

Agora é sua vez <3

Tente criar os elementos posicionados no formato abaixo usando flex-box no [codepen](#) ou no [glitch](#).

WOMEN WHO

**Vamos colocar a
mão na massa?**
